

Advance Care Planning Medical Assistant and Licensed Practical Nurse Class

This class is offered for medical assistants, licensed practice nurses and other clinicians to promote ACP introductions and will review key elements and processes related to ACP, advance directives and Provider Orders Life-Sustaining Treatment (POLST) in the clinic.

Course Objectives:

- Apply ACP resources to promote advance care planning discussions.
- Promote patients' knowledge of advance directives including health care power of attorney designation.
- Describe the differences between the an Advance Directive and Provider Order for Life-Sustaining Treatment (POLST) and implement correct documentation of these documents.
- Implement and standardize ACP processes in the clinic.
