TARGET AUDIENCE: This program is designed to provide education for frontline staff caring for pediatric trauma patients to include nurses, advanced practice providers, physicians, respiratory therapists, pharmacists, rehabilitation therapists, social workers and EMS providers.

OBJECTIVES:

- Integrate and apply new knowledge to decrease morbidity and mortality in pediatric trauma.
- Implement best practices to improve outcomes in the care of pediatric trauma patients.
- Develop and foster teamwork and collaboration among physicians, nurses and other community clinicians for the common goal of comprehensive and integrated care of the trauma patient.
