Wellbeing and Resilience for Health Professionals

What can you expect from this wellbeing series?

Overall Series Objectives:

- Review the public health issue of stress and burnout.
- Identify practical stress coping and relaxation techniques to address and avoid burnout.
- Implement resilience habits on the job.
- Review the science and importance of resilience skills.
- Build relationships to sustain support and share resilience mindsets and skills.
- Review measures to gauge stress, burnout and resilience.

“The course offered valuable information from credible sources. I acquired techniques and connected with like-minded individuals who prioritize their well-being, which was truly inspiring.

The series emphasized the significance of human connection in self-care.

Participants consistently left each class feeling inspired, knowing they weren’t alone in their wellness struggles and gaining insight into effective strategies.

Prioritizing one’s wellbeing automatically enhances both the quality of life and work.”

- Steve, Wailuku, Hawai‘i
