What is a guarantor?
The guarantor is the person or entity responsible for paying the balance of an account.

What if I can't pay all at once?
If you can't pay your whole bill at once, you may be able to set up a payment plan. This lets you automatically pay a small amount each month.

Why should I go paperless?
When you go paperless, you help the environment by saving paper. You won't get paper statements mailed to you - instead, you'll get an electronic notification when you have a new statement.

* Please note there may be times when your bill is split between doctor's services and hospital services.
