

# Concussion Care

## Basics of Concussion Care

### SLEEP

- Make sure to get 8-10 hours of sleep per night
- Limit napping
- No napping after 3 p.m.

### SCHOOL

- Make sure the school is aware of your head injury
- If needed, may hold off on returning to school for 1-3 days

### ACTIVITY

- No contact activity until seen by your physician
- Light daily walking as tolerated is encouraged

### NUTRITION

- Make sure to eat regular meals even if they are smaller
- Have a serving of protein with every meal

### HYDRATION

- Make sure that you are drinking plenty of water throughout the day

### ROUTINE/ SCHEDULE

- Your brain will recover faster if you maintain a regular routine or schedule

## Extra Tips

### ELECTRONICS

- Use only in small increments
- Turn the brightness down

### P.E./ACTIVITY CLASSES

- Do not participate until cleared by your physician

### MUSIC

- Only as tolerated, this is dependent on the instrument and how large the class is

### OUTDOORS

- Refrain from swimming in the ocean during big surfs
- Avoid strenuous hikes

### OTHER

- May use sunglasses and ear plugs for light/noise sensitivity short term
