

Parking/Drop-Off Instructions

The Dr. James T. Kakuda Cancer Center at Pali Momi Medical Center

98-1005 MOANALUA ROAD | 'AIEA, HI 96701

Located directly across from Pearlridge Wai Makai (formerly Downtown) and California Pizza Kitchen.

WALKING FROM PALI MOMI MEDICAL CENTER:

On the ground floor, use the covered walkway located on the makai side of the building on Haukapila Street. Continue on the sidewalk, crossing the parking garage driveway/entrance, and take the crosswalk to reach the front entrance of the Cancer Center.

PARKING/DROP-OFF AREA:

Free in the Pearlridge Center parking garage adjacent to the Cancer Center building.

- **For those who require assistance:**

Continue on Haukapila Street. Turn right at the stop sign. Take the second left to enter the ground floor of the parking garage. There are two drop-off areas with ramps for patients in wheelchairs. ([Green path on map.](#))

A Parking Ambassador is available inside this parking area to help those who require assistance, and will be happy to escort patients and visitors to the Cancer Center.

Family members and caregivers are advised to park on the ground floor. There are 10 parking spots designated for Cancer Center patients only, but all spots are available to park if those are occupied.

- **For those who do not require assistance:**

There is a drop-off area for patients on Haukapila Street in front of the Cancer Center. This is recommended for patients who need little or no assistance, as it is not wheelchair accessible.

To park, family members and caregivers may continue on Haukapila Street, passing California Pizza Kitchen on the left. Turn right at the stop light, continue through the mall parking lot, and follow the road around to the right, up the ramp and into the parking structure entrance. ([Blue path on map.](#))

Park on any floor in the parking structure. We recommend parking close to elevator for easiest accessibility down and back up. Take elevator down to the ground level and use the crosswalk to cross the street and enter the Cancer Center.
