

# Hawai'i Pacific Health Women's Bone & Joint Services

The Women's Bone & Joint Clinic at Kapi'olani Medical Center for Women & Children is dedicated to providing quality care for women with bone and joint issues.

Dr. Ashley Aratani is an orthopedic oncologist who also treats general orthopedic issues in female patients of all ages, from keiki to kupuna. She can help identify and provide treatment options for conditions such as bone and soft tissue sarcomas as well as benign bone and soft tissue tumors.

Dr. Mariya Opanova is an orthopedic surgeon who treats general orthopedic issues and specializes in hip and knee joint replacement surgery, which can enable patients to regain their mobility and return to an active lifestyle. She is available to treat adult female patients for bone and joint conditions.
