

HPH Guidelines for Transfer to Straub for Neurosurgery Evaluation

Effective February 27, 2017

The following guidelines are designed to provide guidance to practicing clinicians regarding the emergent transfer of patients for neurosurgical evaluation and treatment. These guidelines are not intended to supersede the medical judgment of the attending provider.

1. Contact should be made via the Straub Transfer Hotline 808-304-2212.
2. If available, requesting physician should be a neurologist who has directly examined the patient and imaging.
3. Brief history, detailed neurologic exam, medications (especially blood thinners/antiplatelet agents) should be available at time of call.

For questions regarding these guidelines, contact Amy Corliss, MD: (808) 346-8420;
