

Kapiolani Medical Center for Women & Children Community Health Improvement Plan for 2023-2025

Kapiolani Medical Center for Women & Children (Kapiolani) is pleased to share its Community Health Improvement Plan (CHI Plan), also called an “Implementation Strategy,” which follows the development of Kapiolani’s Community Health Needs Assessment (CHNA). This Community Health Improvement Plan was approved by the Kapiolani Board of Directors on October 19, 2022.

Kapiolani is part of the Hawai‘i Pacific Health (HPH) not-for-profit healthcare network of hospitals, clinics, physicians and care providers dedicated to the mission of improving the health and well-being of the people of Hawai‘i and the Pacific Region.

Community Health Needs Assessment

In 2021, nineteen not-for-profit hospitals across the state of Hawai‘i, including Kapiolani, jointly conducted a Community Health Needs Assessment. Kapiolani’s CHNA, completed in 2022, may be viewed on HPH’s website at: <https://www.hawaiipacifichealth.org/about-us/community>

Identified Community Health Priorities

Kapi'olani's Community Health Priorities for 2023-2025

HPH has adopted the following focus areas for its community health improvement initiatives: *Strengthening families and developing resilient children by promoting 1) Economic Empowerment through food security, housing stability, and self-sufficiency; and 2) Education through holistic child development and family educational attainment.*

The CHNA identified five priority community health needs: Financial Security, Food Security, Mental Health, Housing, and Trust and Equitable Access. To select the community health priorities that Kapi'olani will address in its 2023-2025 Implementation Strategy, a committee of community benefits professionals from across HPH, including Kapi'olani, evaluated the priority health needs identified in the CHNA using the following criteria:

- Alignment with the above HPH community health focus areas,
- Opportunity to leverage planned and existing HPH community partnerships and initiatives,
- Alignment with HPH's resources and expertise, and
- Potential to have a measurable impact in collaboration with partners.

Based on these criteria, Kapi'olani Medical Center for Women & Children selected:

- Financial Security
- Food Security
- Trust & Equitable Access

The following table summarizes Kapi'olani's Community Health Improvement Plan to address its identified priority health needs.

Kapi'olani Medical Center for Women & Children
Community Health Improvement Plan for 2023-2025
